

ACCUSES SOLON
OF CORRUPTIONFormer Chief Page of House
Before Lobby Probers.

USES PROFANITY AND SLANG

I. H. McMichael Charges Representative James E. McDermott of Illinois With Obtaining Money for His Influence in Legislation—Testimony Corroborates Allegations of M. M. Mulhall.

Washington, Aug. 16.—In a dramatic statement I. H. McMichael, dismissed chief page of the house of representatives, presented to the house lobby investigating committee a sweeping charge of corruption against Representative James E. McDermott of Illinois, for years his sponsor.

With intense earnestness McMichael, in picturesque language, corroborated the allegations of M. M. Mulhall against McDermott and made additional charges, at times shocking the committee and spectators with outbursts of profanity and slang.

The witness protested that for years he had exerted every effort to support McDermott, had loaned him money, had helped him in his campaign. Now, he said, McDermott had thrown him down and he felt that he must tell the truth.

In addition to the charges already made McMichael swore that the Chicago representative told him that he received \$7,500 out of a fund of \$10,000 raised by the pawnbrokers of Washington to oppose a bill passed in the last congress regulating interest rates in the District of Columbia.

Asked to Conceal Facts.

Concluding his testimony McMichael testified that McDermott, since the Mulhall expose, had endeavored to get him to conceal McDermott's part in the transactions.

"I met McDermott in the hall of this office building," McMichael said, his voice unsteady with emotion, "and he said 'My God, I'm a ruined man! What am I going to do? Do you suppose anybody will believe this old guy?'"

"I said to him 'I've worked hard for you for six years, harder than I ever worked for any man. I tried to elevate you and help you to a big position.' I told him I had done all I could for him."

"He said 'You've got nothing to lose, you don't live with your wife. I'm a congressman and I've got a wife and children. Say you wrote those letters unbeknownst to me and that I didn't know anything about it.'"

"Even if they prove that you committed perjury and forgery they can only send you down the river to the Ark for two years and I'll pay you \$100 a month while you are there."

Refuses to Perjure Himself.

"I said to him, 'Yes, you're willing to pay me \$100 a month to go to jail for you, but you won't pay me the wages you honestly owe me. I've got \$11 in my pocket. That's all I've got to show for six years' work, but I won't do this for you.'"

Apparently struggling to control himself McMichael told the committee of furnishing \$75 to take Mulhall to Chicago to aid McDermott in the 1912 campaign.

"Where did you get that money?" Representative Garrett asked.

"My mother had just died," McMichael said, "and I was executor for her estate."

McMichael told at length of making trips to various pawnbrokers in Washington to secure money either for McDermott or himself.

From the fall of 1909 until January, 1912, McMichael said, he was almost constantly on the payroll of Martin M. Mulhall, the National Association of Manufacturers' field agent, at \$50 a month, while he was successively Democratic chief page of the house, attendant in the house press gallery and elevator conductor in the Capitol.

TO LEND CHINA \$50,000,000

Belgian Syndicate Signs Agreement to Finance New Road.

Peking, Aug. 16.—A Belgian syndicate signed with the Chinese minister of communications an agreement for a loan of \$50,000,000 at 5 per cent interest in connection with the new railroad to be constructed in the provinces of Shansi and Szechuen. The cabinet approved the transaction, which, however, has not yet been submitted to the Chinese parliament.

Boycott on Jap Peddlers.

Grass Valley, Cal., Aug. 16.—A resolution providing for the appointment of a special committee to co-operate with business men of the city in keeping out Japanese fruit peddlers was adopted by the chamber of commerce. All citizens will be asked not to patronize Asiatics. The committee will formulate plans to keep the Japanese fruit men out of the city.

Mother and Babies Are Killed.

Chicago, Aug. 16.—Mrs. Stephen Drakowski and her twin babies, which she was wheeling in a go-cart, were fatally injured when struck by the Monop flyer at a South Side crossing. The infants were thrown about twenty-five feet on opposite sides of the track.

NOW STUDYING
WILSON'S NOTEMexican President Agrees to
Receive Document.

LIND ADMITS CONFERENCES

While the Government Remains Silent Regarding the Entire Matter President Wilson's Special Representative Declares He Has Held Cordial Meetings With the Mexican Foreign Minister.

Mexico City, Aug. 16.—President Wilson's message to President Huerta is now in the possession of the government.

Foreign Minister Bamboa, in the two conferences he has had with John Lind, President Wilson's special representative in Mexico, came to the conclusion with the consent of President Huerta that the simplest way to an end was to accept the document for President Huerta and his cabinet and study it.

It would appear now that as the message has been in the possession of the government since Thursday night and no action concerning it has yet been announced the government is not disposed summarily to reject it.

It is argued by those who have been watching the efforts of President Wilson to effect a settlement of Mexico's difficulties that the longer Mexico delays her answer, up to a reasonable time, the more reason there is for hope that President Huerta is disposed to give friendly consideration to the document.

The government remains silent regarding the entire matter, but Mr. Lind, with the consent of Senator Gamboa, admitted for the first time to American newspaper correspondents that he had held conferences with the Mexican minister of foreign affairs, adding that they had been cordial in character.

While neither of the principals will admit the fact information has been obtained that the object of Mr. Lind's visit to Senator Gamboa was to deliver President Wilson's note.

MARTIAL LAW IN NANAIMO

British Columbia Troops Quell Coal
Strike Disturbances.

Nanaimo, B. C., Aug. 16.—The provincial government of British Columbia has taken over the maintenance of order in the coal district of Vancouver island, where miners have been on strike since May 1. Martial law is enforced, the saloons are closed and 1,000 soldiers are quartered in the disturbed region.

The strikebreakers, attacks on whom were the feature of the rioting in the last few days, have been gathered up by the soldiers and are safe. Negotiations for a settlement of the strike are in progress.

GIRL ACCUSES MILLIONAIRE

Mining Man Held in California on
Kidnaping Charge.

Los Angeles, Aug. 15.—Henry W. Haskamp, reputed to be a multimillionaire oil operator and mining man of Victoria, B. C., was arrested on complaint of Carral Mason, fifteen years old, who alleges that she was kidnapped and held captive for two weeks by several men.

Robert W. Burton, a young salesman, also was arrested. The girl disappeared two weeks ago from the apartment where she lived with her mother.

DUE TO SUDDEN WIND.

Leipzig, Germany, Aug. 16.—

Herr Rueter, a passenger in an aeroplane driven by Aviator Roempler, was killed here when a sudden gust of wind caused the machine to turn over. Roempler was injured but not seriously. The aeroplane had been flying at a height of thirty feet.

New York Coppers in Court.

New York, Aug. 16.—With Mayor Gaynor and District Attorney Whitman at odds over the mayor's 1 o'clock curfew crusade, a magistrate issued warrants charging assault against Police Inspector Dwyer and thirteen policemen who ejected men and women diners an hour after midnight. Mr. Whitman was among those who were driven out.

May Try Girl for Murder.

Benidjil, Minn., Aug. 16.—Faith Benedict, seventeen years old, brought from Spooner, charged with killing her child near Clemons and attempting suicide, was placed in jail here to await trial. Colonel Henry Funkley of this city has offered to conduct the defense. The case will come before the September grand jury.

COMMISSION PLAN FOR "U"

Regents Place Government in Hands
of Five Deans.

Vermillion, S. D., Aug. 16.—The board of regents has placed the management of the state university in the hands of the five deans for the time being, on account of the resignation of Franklin B. Gault, whose term will expire Sept. 1.

The university will be managed under the commission plan. The commissioners will meet daily. Each dean will preside over the daily sessions for one month.

The first to preside will be Dean Grabbil. Then in order will come Deans Lommen, Akeley, Persho and McKusick.

EXTENDED DEBATE
DELAYS PROGRESSSenate May Decide to Hold
Longer Sessions.

Washington, Aug. 16.—Extended debate in the senate over details of the agricultural schedule delayed progress on the tariff bill again.

Democratic leaders are canvassing the situation to decide as to the advisability of beginning longer sessions next week that work on the bill may be hastened.

The senate is now working from 11 o'clock to 6. Earlier sessions and meetings at night probably will be recommended.

Efforts by Senator Page of Vermont to prevent the Democrats cutting the 6-cent duty on butter to 2½ cents per pound were unsuccessful at the end of a long debate.

An attempt by Senator Gronna to put a duty of 15 cents a bushel on potatoes also was unsuccessful. The present bill would make them free with a countervailing duty.

The potato tariff brought another criticism from Senator Bristow concerning the potato starch duties, on which he made a vigorous speech some time ago. He declared that to put potatoes on the free list, while starch and other potato products were left dutiable, "was one of the worst examples in the bill of the discrimination against farmers."

Senator Gronna opposed the committee amendment reducing the house duty of 20 cents per bushel on linseed to 15 cents. He said only the linseed oil trust, owned by Standard Oil, would benefit by the reduction.

CLAYTON REACHES CAPITAL

Will Have Commission Presented to
Senate Next Week.

Washington, Aug. 16.—Representative Henry D. Clayton of Alabama arrived in Washington with his commission as United States senator to succeed the late Joseph F. Johnston. Mr. Clayton went to his office in the house office building, where he announced that his commission would not be presented to the senate until Monday or Tuesday.

In the meanwhile he will consult with friends as to his course in urging the validity of his appointment.

SENATE CONFIRMS.

Washington, Aug. 16.—The senate confirmed the nomination of Professor Paul E. Reinsch of Wisconsin as minister to China and Madison R. Smith of Missouri as minister to Haiti.

Reassured.

Mistress—Did any one call while I was out?

New Girl—Yes, mum; Mrs. Green called.

"Did she seem disappointed when you said I was not at home?"

"Well, she did look a little queer, but I told her she needn't get cross about it, 'cause it was really true this time."

MANY LOOK FOR
MEXICAN WARWilson Reluctant, but May Be
Forced to Act.

REPUBLICANS GOAD HIM ON

If Hostilities Should Begin the Burden of Responsibility Would Fall on Shoulders of the President—Situation Similar to That Which Confronted McKinley in 1898.

By ARTHUR W. DUNN.

Washington, Aug. 16.—[Special.] Criticism of the administration for inaction or lack of policy in regard to Mexico naturally comes from Republican sources. It must also be acknowledged that most of the Republican senators who have taken the matter up are equally critical of the last Republican administration for inactivity or for dealing too gently with those who have been making trouble for Americans in Mexico.

There are many men in both houses of congress, and they do not belong to one party by any means, who believe that intervention with force is necessary and that we are going to have war with Mexico. Most of them deplore it and many fear it will be years before we can withdraw from that distracted country. Naturally, President Wilson is more reluctant than any other person, for his is the great responsibility.

Similar to 1898.

The situation is similar to that in 1898. Then the Republican president, Mr. McKinley, was criticised by the Democrats for inactivity in behalf of Cuba. The Democrats introduced many resolutions for intervention and sought to have them considered. A body of so called "insurgents" among the Republicans finally grew so large that action was forced upon the Republicans to pass the resolution which was virtually the beginning of the war with Spain.

I remember that among the men I met at that time was James Hamilton Lewis, then an ex-member of the house and a resident of Washington state. "My boy," remarked the future Illinois senator, "we Democrats have taken the Republicans by the scruff of the neck and pitched them into this war. The political result will be that the Republicans will remain in power for the next ten years."

Which showed that Lewis was "some prophet."

Military Committee Innovation.

For the first time since the civil war the military committee of the senate will have for its chairman a man who did not participate in that war. The Democrats have no civil war veteran now a member of the committee. The man next in line is Senator Chamberlain of Oregon, who was much too young to participate in the war. The committee has had but five chairmen since John A. Logan died. They were Hawley of Connecticut, Bate of Tennessee, Warren of Wyoming, Du Pont of Delaware and Johnston of Alabama. The Republicans have four civil war soldiers members of the committee.

A Sensitive Department.

Secretary McAdoo has found that the treasury is a sensitive department—that is, in money matters. Just now the department seems to be the nerve center of the government on account of the demand for money to move crops and the prospects of financial legislation. Bankers and business men from all over the country are coming to Washington to see Mr. McAdoo or are flooding him with letters on the subject of finance.

Can't Stop It.

About once in so often members of the house arise and howl about filling the Congressional Record with extraneous matters, speeches on all kinds of topics and irrelevant to matters pending in congress. But they can't stop that sort of thing. The man with a desire to have something printed which he can get free and mail many copies free is not to be outwitted. He gets it printed sooner or later.

"Inching Up" on the Tariff.

Senator Simmons is "inching up" from time to time on the tariff bill. He presses consideration a little later in the evenings and a little earlier in the mornings. When he gets the senate upon a ten hour schedule great progress will be made.

But he must move with caution. Should he undertake to press too hard there might be a demand for a quorum and Republican senators might absent themselves. So far, nothing like that has been threatened, and Simmons knows the senate well enough to handle it with care and due regard for convenience of senators who must talk.

Want Their Plums.

New members of the house—Democrats, of course—are making quite a fuss because they are getting no patronage. These members came to Washington and found all the places taken by the older members. But they have been making themselves felt. They don't intend to be put off much longer. As near as it can be figured out, there is about a thousand dollars in patronage to each man, but each man wants that amount of job for hungry constituents even if it will not go very far.

Makes Hustlers.

The country which is cultivated with difficulty produces great men.—Menander.

MISS JANE ADDAMS.

Tells Mass Meeting That
Women Should Have Ballot.

© 1912, by American Press Association.

SAYS WOMEN NEED BALLOT

Miss Jane Addams Delivers Address
on Suffrage.

Washington, Aug. 16.—Miss Jane Addams of Chicago addressed a mass meeting, marking the conclusion of a conference here of the National Council of Women Voters, representing about 4,000,000 feminine voters in several Western states.

Urging the need for universal woman's suffrage Miss Addams said that women should have the franchise not only to bring about intelligent humanitarian legislation, but to be in a position to follow it into intelligent enforcement.

"More than one woman can recall," she said, "some cherished project that has been so modified by uninformed legislators during the process of legal enactment that the law finally passed injured the very people it was meant to protect."

CONTINUE ATTACK
ON CURRENCY BILLOpponents Fighting Hard to
Amend Measure.

Washington, Aug. 16.—After three hours of lively discussion between the administration forces and the currency "insurgents," the house Democratic caucus adjourned until Monday.

The fight for amendments to the bill has been bitter and the prospects are that the caucus might run on through all next week, with a final contest on the floor of the house inevitable.

Attacks on the bill began in the caucus soon after Representative Burland of Missouri entered upon an analytic defense of the measure.

He was frequently interrupted, as was Majority Leader Underwood, who came to his support.

Mr. Underwood, discussing the proposed controlling federal reserve board, said the administration happening to be in power, regardless of politics, would be most vitally interested in preventing panic or depression at all times.

Representative Hardwick of Georgia attacked the bill as creating a great monopoly in money and establishing a gigantic political and financial machine, conferring greater power than any man or set of men should have.

He said that the day was apt to come when "some mounted Roosevelt would get the government reins and perpetuate himself as a Diaz, with all the powers of banks, railroads and other corporations linked."

CHINESE REBELS DEFEATED

Federal Forces Capture Purple Hill
on Outskirts of Nanking.

Shanghai, Aug. 16.—Government troops under General Chang-Hsuen captured Purple hill, a position commanding Nanking, and the rebels in that city are not expected to offer serious resistance.

General Feng Kwo-Chang, with 5,000 government troops, has massed his forces three miles to the north of Pukow on the northern bank of the Yangtze-Kiang.

There has been some looting in Nanking, but foreign property has not been touched.

Nice For Pa.

Peter (to gentleman caller)—You ain't black, are you? Caller—Black, child? Why, no; I should hope not. What made you think I was? Peter—Oh, nothin'; pa said you were awfully niggardly.—London Express.

VICTIM STABBED TO DEATH

Texan Found Dying in Omaha Ac-
cuses Negroes.

Omaha, Aug. 16.—J. J. Cain of Dallas, Tex., was found in an alley in South Omaha almost disemboweled, with a knife slash eighteen inches long across his abdomen.

Except to say that the crime was committed by negroes Cain was unable to give details and died at a hospital shortly after being found. Two arrests have been made.

GLYNN DECLINES
SULZER'S OFFER

GARMENT WORKERS RIOTING

Guns, Shears, Stiletos, Bricks and
Other Weapons Used.

St. Louis, Aug. 16.—The third day of the garment makers' strike was characterized by incessant rioting, in which guns, shears, bricks, stiletos, lead pipe billies and pieces of sewing machines were used as weapons. More than a score of arrests were made.

Striking men and girls, strikebreakers, cloak manufacturers and private detectives were included among those taken in custody by the police.

INVALIDS SAVED FROM FIRE

Heroic Work Prevents Heavy Loss
of Life.

Provo, Utah, Aug. 16.—Heroic work by people living in the vicinity saved the lives of all the forty inmates of the Utah county infirmary, three miles south of here, when the building was invaded by fire. Rescuers, braving the flames, carried out many helpless invalids on coats.

The structure, valued at \$15,000, was entirely destroyed. The fire, which started in the roof, is supposed to have been caused by a spark.

He Had Room.

"Dear me, Tom, you eat a good deal for a little fellow," remarked Uncle John to his nephew.

"I s'pect I aren't so little inside as I look outside," was Tom's ingenious answer.

Rejects Plan to Have Courts
Rule on Governorship.

GIVES REASON FOR ACTION

Lieutenant Governor of New York

Declares He Has No Right to Barter Away Any of the Functions Attaching to the Office in Which He Is Placed by Governor Sulzer's Impeachment.

Albany, N. Y., Aug. 16.—Martin H. Glynn checkmated the movement of William Sulzer to invoke the arbitration of the courts on the question as to which of the two is the present lawful chief executive of the state of New York.

Replying to a formal proposal by the impeached executive to submit the issue to adjudication on an agreed statement of facts Mr. Glynn said it was beyond his power to "barter away any of the functions attaching to the office in which I am placed by your impeachment."

"Any attempt on my part to do so," he said, "or to stipulate a method by which it might be done, would properly place me in the position you now occupy—that of being impeached for malfeasance in office."

Mr. Glynn added that he purposed performing every function of the office of governor, "except in so far as I am restrained by your illegal action or by physical force."

Governor Sulzer left the executive chamber early and after a short spin in an automobile returned to the mansion.

The doors of the executive suite at the capitol were securely locked, while guards paced up and down both within and without in the corridor.

The serious condition of Mrs. Sulzer necessitated the recall of Dr. Robert Abrahams from New York.

STORM IS FATAL TO TWO

Heavy Damage in Minnesota, Man-
itoba and Saskatchewan.

Winnipeg, Man., Aug. 16.—Two persons were killed, several others were injured and damage estimated at several millions of dollars was done by the storm that swept through Manitoba, Saskatchewan and Northern Minnesota.

USES PROFANITY AND SLANG

I. H. McMichael Charges Representative James E. McDermott of Illinois With Obtaining Money for His Influence in Legislation—Testimony Corroborates Allegations of M. M. Mulhall.

Washington, Aug. 16.—In a dramatic statement I. H. McMichael, dismissed chief page of the house of representatives, presented to the house lobby investigating committee a sweeping charge of corruption against Representative James E. McDermott of Illinois, for years his sponsor.

With intense earnestness McMichael, in picturesque language, corroborated the allegations of M. M. Mulhall against McDermott and made additional charges, at times shocking the committee and spectators with outbursts of profanity and slang.

The witness protested that for years he had exerted every effort to support McDermott, had loaned him money, had helped him in his campaign. Now, he said, McDermott had thrown him down and he felt that he must tell the truth.

In addition to the charges already made McMichael swore that the Chicago representative told him that he received \$7,500 out of a fund of \$10,000 raised by the pawnbrokers of Washington to oppose a bill passed in the last congress regulating interest rates in the District of Columbia.

Asked to Conceal Facts.

Concluding his testimony McMichael testified that McDermott, since the Mulhall expose, had endeavored to get him to conceal McDermott's part in the transactions.

"I met McDermott in the hall of this office building," McMichael said, his voice unsteady with emotion, "and he said 'My God, I'm a ruined man! What am I going to do? Do you suppose anybody will believe this old guy?'"

"I said to him 'I've worked hard for you for six years, harder than I ever worked for any man. I tried to elevate you and help you to a big position.' I told him I had done all I could for him.

"He said 'You've got nothing to lose, you don't live with your wife, I'm a congressman and I've got a wife and children. Say you wrote those letters unbeknownst to me and that I didn't know anything about it.'"

"Even if they prove that you committed perjury and forgery they can only send you down the river to the Ark for two years and I'll pay you \$100 a month while you are there."

Refuses to Perjure Himself.

"I said to him, 'Yes, you're willing to pay me \$100 a month to go to jail for you, but you won't pay me the wages you honestly owe me. I've got \$11 in my pocket. That's all I've got to show for six years' work, but I won't do this for you.'"

Apparently struggling to control himself McMichael told the committee of furnishing \$75 to take Mulhall to Chicago to aid McDermott in the 1912 campaign.

"Where did you get that money?" Representative Garrett asked.

"My mother had died," McMichael said, "and I was executor for her estate."

McMichael told at length of making trips to various pawnbrokers in Washington to secure money either for McDermott or himself.

From the fall of 1909 until January, 1912, McMichael said, he was almost constantly on the payroll of Martin M. Mulhall, the National Association of Manufacturers' field agent, at \$50 a month, while he was successively Democratic chief page of the house, attendant in the house press gallery and elevator conductor in the Capitol.

TO LEND CHINA \$50,000,000

Belgian Syndicate Signs Agreement to Finance New Road.

Peking, Aug. 16.—A Belgian syndicate signed with the Chinese minister of communications an agreement for a loan of \$50,000,000 at 5 per cent interest in connection with the new railroad to be constructed in the provinces of Shansi and Szechuen. The cabinet approved the transaction, which, however, has not yet been submitted to the Chinese parliament.

Boycott on Jap Peddlers.

Grass Valley, Cal., Aug. 16.—A resolution providing for the appointment of a special committee to co-operate with business men of the city in keeping out Japanese fruit peddlers was adopted by the chamber of commerce. Vermillion, S. D., Aug. 16.—The board of regents has placed the management of the state university in the hands of the five deans for the time being, on account of the resignation of Franklin B. Gault, whose term will expire Sept. 1.

The university will be managed under the commission plan. The commissioners will meet daily. Each dean will preside over the daily sessions for one month.

The first to preside will be Dean Grall. Then in order will come Deans Lommen, Akeley, Persho and McKusick.

EXTENDED DEBATE
DELAYS PROGRESSSenate May Decide to Hold
Longer Sessions.

Washington, Aug. 16.—Extended debate in the senate over details of the agricultural schedule delayed progress on the tariff bill again.

Democratic leaders are canvassing the situation to decide as to the advisability of beginning longer sessions next week that work on the bill may be hastened.

The senate is now working from 11 o'clock to 6. Earlier sessions and meetings at night probably will be recommended.

Efforts by Senator Page of Vermont to prevent the Democrats cutting the 6-cent duty on butter to 2½ cents per pound were unsuccessful at the end of a long debate.

An attempt by Senator Gronna to put a duty of 15 cents a bushel on potatoes also was unsuccessful. The present bill would make them free with a countervailing duty.

The potato tariff brought another criticism from Senator Bristow concerning the potato starch duties, on which he made a vigorous speech some time ago. He declared that to put potatoes on the free list, while starch and other potato products were left dutiable, "was one of the worst examples in the bill of the discrimination against farmers."

Sensor Gronna opposed the committee amendment reducing the house duty of 20 cents per bushel on linseed to 15 cents. He said only the linseed oil trust, owned by Standard Oil, would benefit by the reduction.

The potato tariff brought another criticism from Senator Bristow concerning the potato starch duties, on which he made a vigorous speech some time ago. He declared that to put potatoes on the free list, while starch and other potato products were left dutiable, "was one of the worst examples in the bill of the discrimination against farmers."

CLAYTON REACHES CAPITAL

Will Have Commission Presented to Senate Next Week.

Washington, Aug. 16.—Representative Henry D. Clayton of Alabama arrived in Washington with his commission as United States senator to succeed the late Joseph F. Johnston. Mr. Clayton went to his office in the house office building, where he announced that his commission would not be presented to the senate until Monday or Tuesday.

In the meanwhile he will consult with friends as to his course in urging the validity of his appointment.

SENATE CONFIRMS.

Washington, Aug. 16.—The senate confirmed the nominations of Professor Paul E. Reinsch of Wisconsin as minister to China and Madison R. Smith of Missouri as minister to Haiti.

Reassured.

Mistress—Did any one call while I was out?
New Girl—Yes, mum; Mrs. Green called.

"Did she seem disappointed when you said I was not at home?"
"Well, she did look a little queer, but I told her she needn't get cross about it, 'cause it was really true this time."

MANY LOOK FOR
MEXICAN WARWilson Reluctant, but May Be
Forced to Act.

REPUBLICANS GOAD HIM ON

If Hostilities Should Begin the Burden of Responsibility Would Fall on Shoulders of the President—Situation Similar to That Which Confronted McKinley in 1898.

By ARTHUR W. DUNN.

Washington, Aug. 16.—[Special.] Criticism of the administration for inaction or lack of policy in regard to Mexico naturally comes from Republican sources. It must also be acknowledged that most of the Republican senators who have taken the matter up are equally critical of the last Republican administration for inactivity or for dealing too gently with those who have been making trouble for Americans in Mexico.

There are many men in both houses of congress, and they do not belong to one party by any means, who believe that intervention with force is necessary and that we are going to have war with Mexico. Most of them deplore it and many fear it will be years before we can withdraw from that distracted country. Naturally, President Wilson is more reluctant than any other person, for his is the great responsibility.

Similar to 1898.

The situation is similar to that in 1898. Then the Republican president, Mr. McKinley, was criticised by the Democrats for inactivity in behalf of Cuba. The Democrats introduced many resolutions for intervention and sought to have them considered. A body of so called "insurgents" among the Republicans finally grew so large that action was forced upon the Republicans to pass the resolution which was virtually the beginning of the war with Spain.

I remember that among the men I met at that time was James Hamilton Lewis, then an ex-member of the house and a resident of Washington state. "My boy," remarked the future Illinois senator, "we Democrats have taken the Republicans by the scruff of the neck and pitched them into this war. The political result will be that the Republicans will remain in power for the next ten years."

Which showed that Lewis was "some prophet."

Military Committee Innovation.

For the first time since the civil war the military committee of the senate will have for its chairman a man who did not participate in that war. The Democrats have no civil war veteran now a member of the committee.

The man next in line is Senator Chamberlain of Oregon, who was much too young to participate in the war. The committee has had five chairmen since John A. Logan died. They were Hawley of Connecticut, Bate of Tennessee, Warren of Wyoming, Du Pont of Delaware and Johnston of Alabama. The Republicans have four civil war soldiers members of the committee.

A Sensitive Department.

Secretary McAdoo has found that the treasury is a sensitive department—that is, in money matters. Just now the department seems to be the nerve center of the government on account of the demand for money to move crops and the prospects of financial legislation. Bankers and business men from all over the country are coming to Washington to see Mr. McAdoo or are flooding him with letters on the subject of finance.

Can't Stop It.

About once in so often members of the house arise and howl about filling the Congressional Record with extraneous matters, speeches on all kinds of topics and irrelevant to matters pending in congress. But they can't stop that sort of thing. The man with a desire to have something printed which he can get free and mail many copies free is not to be outwitted. He gets it printed sooner or later.

"Inching Up" on the Tariff.

Senator Simmons is "inching up" from time to time on the tariff bill. He presses consideration a little later in the evenings and a little earlier in the mornings. When he gets the senate upon a ten hour schedule great progress will be made.

But he must move with caution. Should he undertake to press too hard there might be a demand for a quorum and Republican senators might absent themselves. So far, nothing like that has been threatened, and Simmons knows the senate well enough to handle it with care and due regard for convenience of senators who must talk.

Want Their Plums.

New members of the house—Democrats, of course—are making quite a fuss because they are getting no patronage. These members came to Washington and found all the places taken by the older members. But they have been making themselves felt. They don't intend to be put off much longer. As near as it can be figured out, there is about a thousand dollars in patronage to each man, but each man wants that amount of job for hungry constituents even if it will not go very far.

Makes Husters.

The country which is cultivated with difficult produces great men.—Menander.

MISS JANE ADDAMS.

Tells Mass Meeting That
Women Should Have Ballot.

© 1912, by American Press Association.

SAYS WOMEN NEED BALLOT

Miss Jane Addams Delivers Address on Suffrage.

Washington, Aug. 16.—Miss Jane Addams of Chicago addressed a mass meeting, marking the conclusion of a conference here of the National Council of Women Voters, representing about 4,000,000 feminine voters in several Western states.

Urging the need for universal woman's suffrage Miss Addams said that women should have the franchise not only to bring about intelligent humanitarian legislation, but to be in a position to follow it into intelligent enforcement.

"More than one woman can recall," she said, "some cherished project that has been so modified by uninformed legislators during the process of legal enactment that the law finally passed injured the very people it was meant to protect."

CONTINUE ATTACK
ON CURRENCY BILLOpponents Fighting Hard to
Amend Measure.

Washington, Aug. 16.—After three hours of lively discussion between the administration forces and the currency "insurgents," the house Democratic caucus adjourned until Monday.

The fight for amendments to the bill has been bitter and the prospects are that the caucus might run on through all next week, with a final contest on the floor of the house inevitable.

Attacks on the bill began in the caucus soon after Representative Burdall of Missouri entered upon an analytic defense of the measure.

He was frequently interrupted, as was Majority Leader Underwood, who came to his support.

Mr. Underwood, discussing the proposed controlling federal reserve board, said the administration happening to be in power, regardless of politics, would be most vitally interested in preventing panic or depression at all times.

Representative Hardwick of Georgia attacked the bill as creating a great monopoly in money and establishing a gigantic political and financial machine, conferring greater power than any man or set of men should have.

He said that the day was apt to come when "some mounted Roosevelt would get the government reins and perpetuate himself as a Diaz, with all the powers of banks, railroads and other corporations linked."

CHINESE REBELS DEFEATED

Federal Forces Capture Purple Hill on Outskirts of Nanking.

Shanghai, Aug. 16.—Government troops under General Chang-Huau captured Purple Hill, a position commanding Nanking, and the rebels in that city are not expected to offer serious resistance.

General Feng Kwo-Chang, with 5,000 government troops, has massed his forces three miles to the north of Pukow on the northern bank of the Yangtse-Kiang.

There has been some looting in Nanking, but foreign property has not been touched.

Nice For Pa.

Peter (to gentleman caller)—You ain't black, are you? Caller—Black, child? Why, no; I should hope not. What made you think I was? Peter—Oh, nothing; pa said you were awfully niggardly.—London Express.

VICTIM STABBED TO DEATH

Texan Found Dying in Omaha Accuses Negroes.

Omaha, Aug. 16.—J. J. Cain of Dallas, Tex., was found in an alley in South Omaha almost disemboweled, with a knife slash eighteen inches long across his abdomen.

Except to say that the crime was committed by negroes Cain was unable to give details and died at a hospital shortly after being found. Two arrests have been made.

GLYNN DECLINES
SULZER'S OFFER

GARMENT WORKERS RIOTING

Guns, Shears, Stiletos, Bricks and
Other Weapons Used.

St. Louis, Aug. 16.—The third day of the garment makers' strike was characterized by incessant rioting, in which guns, shears, bricks, stiletos, lead pipe bilbies and pieces of sewing machines were used as weapons. More than a score of arrests were made.

Striking men and girls, strikebreakers, cloak manufacturers and private detectives were included among those taken in custody by the police.

INVALIDS SAVED FROM FIRE

Heroic Work Prevents Heavy Loss
of Life.

Provo, Utah, Aug. 16.—Heroic work by people living in the vicinity saved the lives of all the forty inmates of the Utah county infirmary, three miles south of here, when the building was destroyed by fire. Rescuers, braving the flames, carried out many helpless invalids on cots.

The structure, valued at \$45,000, was entirely destroyed. The fire, which started in the roof, is supposed to have been caused by a spark.

He Had Room.

"Dear me, Tom, you eat a good deal for a little fellow," remarked Uncle John to his nephew.

"I s'pect I aren't so little inside as I look outside," was Tom's ingenious answer.

Rejects Plan to Have Courts
Rule on Governorship.

GIVES REASON FOR ACTION

Lieutenant Governor of New York

Declares He Has No Right to Barter Away Any of the Functions Attaching to the Office in Which He Is Placed by Governor Sulzer's Impeachment.

Albany, N. Y., Aug. 16.—Martin H. Glynn checkmated the movement of William Sulzer to invoke the arbitration of the courts on the question as to which of the two is the present lawful chief executive of the state of New York.

Replying to a formal proposal by the impeached executive to submit the issue to adjudication on an agreed statement of facts Mr. Glynn said it was beyond his power to "barter away any of the functions attaching to the office in which I am placed by your impeachment."

"Any attempt on my part to do so," he said, "or to stipulate a method by which it might be done, would properly place me in the position you now occupy—that of being impeached for malfeasance in office."

Mr. Glynn added that he purposed performing every function of the office of governor, "except in so far as I am restrained by your illegal action or by physical force."

Governor Sulzer left the executive chamber early and after a short spin in an automobile returned to the mansion.

The doors of the executive suite at the capitol were securely locked, while guards paced up and down both within and without in the corridor.

The serious condition of Mrs. Sulzer necessitated the recall of Dr. Robert Abrahams from New York.

STORM IS FATAL TO TWO

Heavy Damage in Minnesota, Man-
itoba and Saskatchewan.

Winnipeg, Man., Aug. 16.—Two persons were killed, several others were injured and damage estimated at several millions of dollars was done by the storm that swept through Manitoba, Saskatchewan and Northern Minnesota.

Charles McCabe, eighty-five years old, and his son, James McCabe, were killed at Ogema, Sask. They were struck by flying timbers from a demolished building.

At Lancaster, Minn., lumber in a yard was blown all over town and an incoming Soo train was compelled to stop for forty minutes until the worst of the storm had passed.

Damage to crops throughout the storm area is almost beyond estimate.

SENDS PEACHES TO WILSON

Postmaster General Inaugurates
New Parcel Post Regulations.

Washington, Aug. 16.—Postmaster General Burleson inaugurated the new regulations changing the parcel post rates and weight limit by mailing President Wilson a box of fine Georgia peaches.

The box, which weighed seventeen pounds, with a postage charge of 13 cents, was delivered at the White House.

With it came a note in which the postmaster general said:

"This is an illustration of the opportunity which has been opened to the farmer, the horticulturist, the manufacturer and to every citizen of the country who will avail himself of the valuable adjunct of the postal service."

GOVERNMENT DROPS ACTION

Federal Court Decides There Is No
Magazine Trust.

New York, Aug. 16.—The federal government has dropped its anti-trust suit against the periodical clearing house, an organization that embraces some important magazines in the East.

The government sought to prove that magazine makers, some of them active in "muck raking" the great industrial and commercial combinations, were themselves guilty of combination in violation of the Sherman law.

The United States court in this district decided in favor of the publishers nearly a month ago, but the news of the government's defeat did not become generally known until now.

MANY HAVE NARROW ESCAPE

Cask of Alcohol Explodes in St. Paul
Liquor House.

St. Paul, Aug. 16.—Sixty persons fled in a rain of exploding alcohol and flying glass from the wholesale liquor house of George Benz & Sons after a forty-gallon cask of alcohol had set the building roaring with flame.

Four persons were hurt, none seriously. Almost miraculous was the escape of Herman Barfuss and Arthur Augustine, who were burned by the first explosion. Augustine was filling bottles from the cask when it exploded, throwing him several feet.

The damage is estimated at \$75,000.

DEVELOPMENTS OF WEEK ON RANGE

Rogers, Brown Ore Co. Three Mines Have Shipped to Date 480,173 Tons of Ore

PENNINGTON'S GOOD RECORD

University of Minnesota Assisting to Compile a Monograph of the Cuyuna Range

The mines of the Rogers, Brown Ore Co. which include the Kennedy at Cuyuna, the Armour No. 1 and No. 2 near Crosby at Ironton have shipped this season 460,173 tons and the balance at present in the docks at Superior is 20,000 tons, making a total of 480,173 tons. The Rogers, Brown people are closely following the estimates they made for shipping this season and if other mines, whose statements were given out early in the season, would have followed as closely, the range would have been assured of total shipments for 1913 equalling one million tons.

The Rogers, Brown Ore Co. has shipped to the Ironquills company 364,673 tons; to the Punxatawney 12,500 tons; the Towanda Iron & Steel Co. 47,000 tons; Cleveland Furnace Co., 25,000 tons; the Hanging Rock company 11,000 tons.

The Kennedy at Cuyuna is the mainstay of that mining town and is hoisting 1,000 tons daily. Ore is also being loaded from the stockpile, about half of which has been shipped.

The Armour No. 1 has quit shipping stockpile and the steam shovel has been transferred. The company may ship the balance of the stockpile later in the season. Dams are being built at the 200 foot level and

the 300 foot level and the mine, which has been ordered shut down for a time, will be filled with water. It is believed that it will eventually be transformed to a stripping proposition within the next year and a half or earlier.

The Armour No. 2 is running as usual and hoisting its customary 900 tons daily.

The Inland Steel company has one shovel at work on its stripping proposition. The main dump is to be near section 34. The right of way has been cut for a distance of a mile and a half and tracks will be laid to a point northwest of Crosby.

The Pennington pit mine lying immediately west of the Armour No. 1 has started shipping and they will move ore as rapidly as they did the overburden. Up to Wednesday noon, August 13, the mine had shipped 255 cars. The Pennington is situated in the southwest quarter of the northeast quarter of section 10, township 46, range 29. The overburden averages 70 feet in depth. John S. Lutes, the superintendent, came from Biwabik early this year and active work with two shovels was in progress in February. In 6 months time Lutes' two shovels removed 1,100,000 cubic yards of dirt, a record which pales into insignificance any figures made by Panama canal shovels. The ground, it is true, has furnished ideal digging. Not a boulder in the place, no rock or gravel, just sand from the surface to the ore. Very little water was encountered and the little which accumulated from rains and seepage was easily pumped out. An office for the superintendent is being built near the mine. The Todd-Stambaugh Co., of Cleveland, Ohio, are owners of the leasehold.

H. J. Cook, formerly with the Great Northern railway company, (Continued on page 4)

Oldest Mine of Rogers, Brown Ore Co. is the Biggest Producer on the Range

CUYUNA'S TRAP SHOOTERS

Dr. G. M. Sewall to Leave for New Location in Granville, N. D., Motoring to Same

Cuyuna, Minn., August 15—The Kennedy mine of the Rogers, Brown Ore Co., is hoisting 1,000 tons a day and the steam shovel has loaded about half of the stockpile. The Kennedy has regularly employed a large crew and is the foundation of the town of Cuyuna.

Cuyuna is in the lime light in the trap shooting world. Leon W. Thomas made a good record at the shoot of the St. Paul Rod and Gun club scoring 269 out of 300. Postmaster Frank Buchanan scored 231. A. C. White of Brainerd, stood sixth and Thomas seventh in the shoot.

The diamond badge at this shoot was won by E. Stokke, of Minneapolis. The previous holders in the last few years were Capt. Aitkin, Surgeon of Cuyuna, White of Brainerd, Goward of Aitkin and the present champion.

Cuyuna has been dry for a period since August 1 when Charles Peterson's saloon ceased doing business. James F. Nemetz has now been granted a license and has opened his place of business in Oak Hill addition.

Dr. G. M. Sewall and family are leaving the end of the week for their new home at Granville, N. D. They are making the trip overland, 500 miles, in the doctor's automobile. Dr. Sewall is a graduate of the medical department of the university of Minnesota and first came to the Cuyuna range in the summer of 1909 when he located in Deerwood, making frequent trips to the Kennedy shaft. He moved to Cuyuna the following year and has since been intimately identified with many public improvements in the upbuilding of the town as secretary of the commercial club.

William Humphrey, father of John Humphrey, has been driving the stage between Cuyuna and Deerwood regularly the last four years, making two trips a day. He carries the mail between the two points. A load that all drivers give a wide berth to is the large wagon carrying the dynamite used in blasting at the mines. Even the autos take great care in passing this man when they meet him on the road.

W. Johnson, professor of geology at the university of Minnesota, was a Cuyuna visitor Wednesday. Visitors comment on the improved appearance of Cuyuna. It resembles a spotless town.

ASSAULTS MOTHER-IN-LAW

Gene Davidson Punished for Beating Mrs. Ramie Landrey—Minor Found Drunk

Gene Davidson, charged with assaulting his mother-in-law, Mrs. Ramie Landrey, was found guilty in municipal court and Judge J. H. Warner sentenced Davidson to pay a \$10 fine or take 10 days in the city lock-up. In addition he was ordered placed under \$100 bonds to keep the peace for six months. Officer Olson is credited with this arrest.

Donald Simmons was arrested by Officer Schulte for being drunk. The 18 year old boy was found guilty and fined \$5 or five days in jail. He paid the fine.

Judge Warner heard the civil case of Andrew Jarvela vs Peder Larson, both parties being from Crosby. The plaintiff claimed \$300 damages based on an alleged breach of warranty and asserted that one of a team of horses purchased was windbroken. The judge in his decision, found for the defendant. Jay Henry Long represented the plaintiff and Swanson & Swanson the defendant.

THE CURSE OF DRINK

Beer and Whiskey Play Havoc in the Case of a Family in Brainerd

Whole temperance lectures may be found in the annals of the police records in this city. One of the most flagrant cases in the intemperate use of liquor is found in that of a family which has given the police of this and past administrations much trouble.

The man drinks to excess and the wife, probably to drown her trouble, drinks too. Both, when in their cups, fight each other and neglect the children and when tired of fighting with each other, they pummel the children and then the neighborhood puts in a general call for police to stop the disorder.

Posting such people and effectually stopping the sale of liquor to them would do much to reform them.

IN DISTRICT COURT

Court Adjourns to 9:30 Monday Morning, August 18

Judge W. S. McClenahan this noon adjourned district court to 9:30 Monday morning, August 18.

The taking of testimony was completed in A. H. Aspholm vs Henry Dorr and the judge took it under advisement.

In Fred Cram vs H. B. Blackwood

The Secret of The Excellency of Macpherson & Langford Suits

The materials in the Macpherson & Langford suits are first carefully selected and then only the very best tailors are employed in the construction of the suits. Yet this will not always produce a good suit.

These manufacturers are one of the very few that baste their suits and fit them on a living model twice before they are completed.

Besides this, they use only the highest grades of canvas and hair clothes in the coats and all fall and winter suits are lined with Skinner's guaranteed lining which is guaranteed for two seasons.

Let us show you the new fall models.

Rogers, Brown Ore Co. Three Mines Have Shipped to Date 480,173 Tons of Ore

PENNINGTON'S GOOD RECORD

University of Minnesota Assisting to Compile a Monograph of the Cuyuna Range

The mines of the Rogers, Brown Ore Co. which include the Kennedy at Cuyuna, the Armour No. 1 and No. 2 near Crosby at Ironton have shipped this season 460,173 tons and the balance at present in the docks at Superior is 20,000 tons, making a total of 480,173 tons. The Rogers, Brown people are closely following the estimates they made for shipping this season and if other mines, whose statements were given out early in the season, would have followed as closely, the range would have been assured of total shipments for 1913 equalling one million tons.

The Rogers, Brown Ore Co. has shipped to the Ironquills company 364,673 tons; to the Punxatawney 12,500 tons; the Towanda Iron & Steel Co. 47,000 tons; Cleveland Furnace Co., 25,000 tons; the Hanging Rock company 11,000 tons.

The Kennedy at Cuyuna is the mainstay of that mining town and is hoisting 1,000 tons daily. Ore is also being loaded from the stockpile, about half of which has been shipped.

The Armour No. 1 has quit shipping stockpile and the steam shovel has been transferred. The company may ship the balance of the stockpile later in the season. Dams are being built at the 200 foot level and

the 300 foot level and the mine, which has been ordered shut down for a time, will be filled with water. It is believed that it will eventually be transformed to a stripping proposition within the next year and a half or earlier.

The Armour No. 2 is running as usual and hoisting its customary 900 tons daily.

The Inland Steel company has one shovel at work on its stripping proposition. The main dump is to be near section 34. The right of way has been cut for a distance of a mile and a half and tracks will be laid to a point northwest of Crosby.

The Pennington pit mine lying immediately west of the Armour No. 1 has started shipping and they will move ore as rapidly as they did the overburden. Up to Wednesday noon, August 13, the mine had shipped 255 cars. The Pennington is situated in the southwest quarter of the northeast quarter of section 10, township 46, range 29. The overburden averages 70 feet in depth. John S. Lutes, the superintendent, came from Biwabik early this year and active work with two shovels was in progress in February. In 6 months time Lutes' two shovels removed 1,100,000 cubic yards of dirt, a record which pales into insignificance any figures made by Panama canal shovels. The ground, it is true, has furnished ideal digging. Not a boulder in the place, no rock or gravel, just sand from the surface to the ore. Very little water was encountered and the little which accumulated from rains and seepage was easily pumped out. An office for the superintendent is being built near the mine. The Todd-Stambaugh Co., of Cleveland, Ohio, are owners of the leasehold.

H. J. Cook, formerly with the Great Northern railway company, (Continued on page 4)

KENNEDY HOISTS 1,000 TONS DAILY

Oldest Mine of Rogers, Brown Ore Co. is the Biggest Producer on the Range

CUYUNA'S TRAP SHOOTERS

Dr. G. M. Sewall to Leave for New Location in Granville, N. D., Motoring to Same

Cuyuna, Minn., August 15.—The Kennedy mine of the Rogers, Brown Ore Co., is noisiting 1,000 tons a day and the steam shovel has loaded about half of the stockpile. The Kennedy has regularly employed a large crew and is the foundation of the town of Cuyuna.

Cuyuna is in the lime light in the trap shooting world. Leon W. Thoms as made a good record at the shoot of the St. Paul Rod and Gun club scoring 269 out of 300. Postmaster Frank Buchanan scored 231. A. C. White of Brainerd, stood sixth and Thomas seventh in the shoot.

The diamond badge at this shoot was won by E. Stokke, of Minneapolis. The previous holders in the last few years were Gupid of Aitkin, Sugar of Cuyuna, A. H. Brainerd, Goward of Aitkin and the present champion.

Cuyuna has been dry for a period since August 1 when Charles Petersen's saloon ceased doing business. James F. Nemetz has now been granted a license and has opened his place of business in Oak Hill addition.

Dr. G. M. Sewall and family are leaving the end of the week for their new home at Granville, N. D. They are making the trip overland, 500 miles, in the doctor's automobile. Dr. Sewall is a graduate of the medical department of the university of Minnesota and first came to the Cuyuna range in the summer of 1909 when he located in Deerwood, making frequent trips to the Kennedy shaft. He moved to Cuyuna the following year and has since been intimately identified with many public improvements in the upbuilding of the town as secretary of the commercial club.

William Humphrey, father of John Humphrey, has been driving the stage between Cuyuna and Deerwood regularly the last four years, making two trips a day. He carries the mail between the two points. A load that all drivers give a wide berth to is the large wagon carrying the dynamite used in blasting at the mines. Even the autos take great care in passing this man when they meet him on the road.

W. Johnson, professor of geology at the university of Minnesota, was a Cuyuna visitor Wednesday. Visitors comment on the improved appearance of Cuyuna. It resembles a spotless town.

FOOT CRUSHED IN THE YARDS

Ray Cairncross, of Duluth, brakeman of a passenger train, had his foot crushed while switching in the yards Friday. He is now at the Northern Pacific railway sanatorium and medical skill will save his foot.

ASSAULTS MOTHER-IN-LAW

Gene Davidson Punished for Beating Mrs. Ramie Landrey—Minor Found Drunk

Gene Davidson, charged with assaulting his mother-in-law, Mrs. Ramie Landrey, was found guilty in municipal court and Judge J. H. Warner sentenced Davidson to pay a \$10 fine or take 10 days in the city lock-up. In addition he was ordered placed under \$100 bonds to keep the peace for six months. Officer Olson is credited with this arrest.

Donald Simmons was arrested by Officer Schulte for being drunk. The 18 year old boy was found guilty and fined \$5 or five days in jail. He paid the fine.

Judge Warner heard the civil case of Andrew Jarvela vs Peder Larson, both parties being from Crosby. The plaintiff claimed \$300 damages based on an alleged breach of warranty and asserted that one of a team of horses purchased was windbroken. The judge in his decision, found for the defendant. Jay Henry Long represented the plaintiff and Swanson & Swanson the defendant.

THE CURSE OF DRINK

Beer and Whiskey Play Havoc in the Case of a Family in Brainerd

Whole temperance lectures may be found in the annals of the police records in this city. One of the most flagrant cases in the intemperate use of liquor is found in that of a family which has given the police of this and past administrations much trouble.

The man drinks to excess and the wife, probably to drown her trouble, drinks too. Both, when in their cups, fight each other and neglect the children and when tired of fighting with each other, they pummel the children and then the neighborhood puts in a general call for police to stop the disorder.

Posting such people and effectually stopping the sale of liquor to them would do much to reform them.

IN DISTRICT COURT

Court Adjourns to 9:30 Monday Morning, August 18

Judge W. S. McClenahan this noon adjourned district court to 9:30 Monday morning, August 18.

The taking of testimony was completed in A. H. Aspholm vs Henry Dorr and the judge took it under advisement.

In Fred Cram vs H. B. Blackwood

The Secret of The Excellency of Macpherson & Langford Suits

The materials in the Macpherson & Langford suits are first carefully selected and then only the very best tailors are employed in the construction of the suits. Yet this will not always produce a good suit.

These manufacturers are one of the very few that baste their suits and fit them on a living model twice before they are completed.

Besides this, they use only the highest grades of canvas and hair clothes in the coats and all fall and winter suits are lined with Skinner's guaranteed lining which is guaranteed for two seasons.

Let us show you the new fall models.

ST. JOE-DECKERTS HERE TOMORROW

Same Lineup Which Faced Brainerd Before With Exception of Catcher and Second Baseman

MINNEAPOLIS TEAM'S HISTORY

Athletes Famous in Football, Basketball and Track Work—Cook Pitches for Locals

The manager of the St. Joe-Deckerts, the Minneapolis team which plays Brainerd here Sunday afternoon on Koering field, has given the Dispatch the lineup of their nine for the game.

Pickering will be left field, Jensen shortstop, Barrett center field, Dean third base, West second base, Byers catcher, O'Shea first base, Broderick right field, Theis and Swanson pitchers, White utility. This is the same team which faced Brainerd the last game, with the exception of the second baseman and the catcher, where West and Byers add to the batting strength over Brown and Miller.

In recent games the St. Joe-Deckerts made a good showing. They defeated the Ballards August 3 by a 12 to 9 score. On August 10 they defeated the Cedar A. C. nine by 10 to 4. The Cedars won the championship of Minneapolis in 1912. On July 4 the St. Joe-Deckerts won from Willmar 7 to 4. They also beat the Harvards 9 to 8.

The St. Joe lost two games to teams of inferior strength, but a glance at the box score will show an absence of four regulars from the lineup in one game and three in the other.

The team is a bunch of athletes prominent in football, basketball and

MACK LOOKS AHEAD

Bruce, in Duluth Herald, Pays a Compliment to Connie Mack's Recognizing Talent

Bruce, in the Duluth Herald, writes: It is said that near the American league park in Philadelphia is a house where nurses and several instructors look after a crowd of boys. This is not a school in the general accepted sense of the word, nor is it an orphan asylum. This is the retreat where some of the future stars Uncle Connie Mack, the kindly genius who wins pennants for Philadelphia, has gathered some of the stars of the public schools and is making sure that their instruction in the great national game is thorough and proficient.

Connie doesn't claim the 1913 flag. The grave and unsmiling leader of the Athletics is letting others throughout the land attend to the acclaim act. He is busily engaged in teaching the young baseball idea how to shoot.

Recently Cornelius McGillicuddy is quoted as saying: "I think my 1914 team will be the strongest I have ever had. Bush, Brown, Shawkey and several other pitchers will be regulars. In addition I have several other youngsters who should develop very rapidly. I feel that we will have a great chance for the pennant next year."

Other managers may scour the bushes and look with envy upon some star that is included in the lineup of a rival team—not so, Mister Mack. The chances are that he is sizing up some cherub playing on a kindergarten team and keenly speculating as whether he will be ripe in 1925.

SOME BASEBALL DOPE

What the Colored Plutos Did to the Superior Golden Rules Was Something Awful

The Plutos, who defeated Brainerd 5 to 0 waded into the Superior Golden Rules in two games and lambasted the life out of that chesty organization.

The Red Devils beat them in the first game by a 5 to 0 score. The second game was a slaughter, the figures reading 22 to 5. The colored contingent had an easy time of it and swatted the ball at will. For the first time in the history of Hislop park a home run was knocked over the back field fence, being negotiated by Pitcher Lynch. Lynch made a double, triple and home run in one inning. Twenty-seven hits, many of them extra base clouts, were registered by the Plutos. Olson, pitching for the Golden Rules, asked to be relieved in the third inning and Dick Bradley, who pitched in Brainerd replaced him. They hit Bradley just as hard as the Scandinavians.

Superior Telegram—Manager Shapiro of the Golden Rules thought he was a business man until he bumped into the system of the Red Devil management. The French Lickers knock all of the balls the home team possesses out of the park and then sell some of their own second hand stock for the top price. It's a grand idea if Shapiro had some hitters he'd try it.

Crosby lost a game to the Adams team of Duluth Sunday, being defeated on their home grounds by a 6 to 5 score. Delburn was on the mound for the Duluthians and pitched superb ball, getting 10 strikeouts to his credit. Nevers did the slab work for Crosby and showed great form, letting the Adams down with five hits. The Adams will play Aitkin Sunday, August 24.

Play Ironton

The Brainerd Speedwells play Ironton Sunday afternoon. In the last game the Speedwells were defeated by Ironton by a 3 to 2 score. This defeat has ruffled in the respective bosoms of the local team and they expect to do up their opponents tomorrow. A large number of rooters will take the early morning "Merry Widow" train to see the game.

SWANSON FROM PILLAGER

Minneapolis St. Joe-Deckert Pitcher Formerly Lived in Pillager

A large delegation of Pillager fans will take in the St. Joe-Deckert game here tomorrow.

Swanson, who is on the St. Joe pitching staff, is a former Pillager boy and the whole town is coming to the game to see him pitch.

There is more Casarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Casarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and testimonials. Address, F. J. Cheney & Co., Toledo, O. Sold by Druggists, 75c. Take Hall's Catarrh Pills for constipation.

In Real Life.

In real life the fireman who rescues the fair maiden is married and eats onions.—Aitchison Globe.

DEVELOPMENTS OF WEEK ON RANGE

(Continued from page three)

has been appointed ore dock agent of the Northern Pacific railway with headquarters at Superior. He visited the Cuyuna range Wednesday in company with Carl Zapfe, of Brainerd. Mr. Cook's duties will be similar to those of Mr. Johnson, the Soo ore traffic man.

Supt. and Mrs. H. J. Kruse have returned from a three weeks' vacation, six days of which were spent on the Great Lakes. This is the first vacation enjoyed by the superintendent of Rogers, Brown Ore Co. properties on the Cuyuna range, in the last three years or more.

The Pittsburgh Steel Ore Co. is operating the hydraulic mine at Little Rabbit lake. The overburden measures from 30 to 45 feet in depth and is easily removed by the electrically driven pumps and the sandsucker. The whole process is a revelation in cheap mining methods, excelling in this regard open pit mining. A handful of men, 15 to 20, are employed on the property which is worked continuously. J. C. Barr is the superintendent. It is thought that not much shipping will be done this season. In 1914 an immense tonnage will be handled. The Carlson Exploration company explored the property and it is claimed that holes Nos. 551 and 552 were the best two that Mr. Carlson ever drilled on any range, the 300 feet of ore being reported to have averaged 60 percent or better. The Carlson & Williams people had a lease for 35 cents a ton and they turned it over to the Pittsburgh Steel Ore Co. at 60 cents a ton. The latter have a 50 year lease.

The Cuyuna-Duluth mine at Ironton, which inaugurated its shipping season on August 3, is increasing its hoisting capacity. The mine has made a record in the way of sinking and shipping, all this work having been accomplished in eight months' time. Stockholders and others were pleased with the showing made by the company and the achievement redounds to the credit of the Lockerdonahue company, of Duluth, which financed the corporation.

The Cuyuna-Mille Laes mine has about completed its order of 6,000 tons to be shipped to the Bethlehem Steel company. Additional miners are being put to work at the Cuyuna-Mille Laes and the Cuyuna-Duluth mines.

The work of sinking a shaft in section 32, township 47, range 29 has been commenced by the Duluth-Brainerd Mining company. This property is situated across Mahonmen lake and north of the Cuyuna-Mille Laes Co. property.

Stockholders of the Vermes-Cuyuna Mining & Development company have received an offer to sell their property and are contemplating the matter. Many of the officials and stockholders are Brainerd men.

The Adams mine at Oreland is being built in drifting. Cottages are being built for the miners in the town near the shaft. The Adams mine is expected to ship this season.

At the Barrows mine of the Virginia Ore Mining company, a subsidiary of the M. A. Hanna company, Supt. Nicholas has established a very good record. He took charge of the mine which had been pumping water for months, drained its shafts, installed a 4,000 gallon pump, got the work well in hand and is now hoisting ore in a steady stream.

The Brainerd-Cuyuna Mining Co. has commenced preliminary operations to sink the shaft near South Sixth street, a mile south of the post-office in the city limits of Brainerd. Mr. Martin is expected to have charge of the operations and on Monday, August 11, the first work was instituted. The shaft will be sunk 200 feet and at that depth the ore body will be crossed. The mine expects to enter the shipping lists in 1914. Many Brainerd people living within a few blocks of the property are stockholders of the company.

The opening of this section of the Cuyuna range within the city limits of Brainerd will draw attention to the holdings of the Martin Exploration Co., the Baker Mining Co., Charles Niemeyer of Duluth, the Judge G. W. Holland properties and the 40 acre tract which the judge gave to the city of Brainerd. Indications of ore have been found on both this 40 and the 80 acre tract which Judge Holland gave the city. The 80 acre plot lies just northeast of the N. P. railway shops and is the scene of marshy ground in Northeast Brainerd. By mining this property bequeathed to it the town will be able to pay all its debts, as estimated by the judge in his will, and will have enough on hand later to make the city as free from taxes as Glasgow, Scotland. No wonder people are considering the statement once made by the judge that time would show that he was the best booster Brainerd ever had. The judge anticipated that 1913 would mark the era of great development in Brainerd.

The Hale-Bradley exploration company has drills operating in section 10, township 46, range 28 and section 16, township 46, range 28.

A. W. Johnson, professor of geology at the university of Minnesota, is at work compiling data on the Cuyuna range. The state survey and the United States geological survey will jointly produce a government report on this new range of Minnesota, each standing half the expense. The book will be published next fall. It is

only lately that the university of Minnesota took an active interest in the mining industry and the plan is to study its growth and foster the same just as agriculture has been done in the past. The university of Minnesota now has graduates from its engineering and geological departments holding positions in every mine on the Mesaba range and a similar peaceful conquest will be made of the Cuyuna range. The dominance of the university of Wisconsin in the mining world will be contested by the university of Minnesota in this, its own state. The day when Wisconsin's name was emblazoned on about every geological and mining monograph is now past and Minnesota is coming to the front. In the preparation of his data Mr. Johnson had placed much dependence for assistance on the late Salisbury F. Adams, of Deerwood, and he was deeply shocked at the sudden death of this young mining engineer who had already made a mark in the world of engineering and geology. Data and all possible assistance is being given Prof. Johnson in the compilation of his report on the Cuyuna iron range and mining men, practical and university trained, are not chary with their information.

Ore shipments from the Cuyuna were not bothered by the ore handlers' difficulties at the head of the lakes. Work continued uninterrupted at all points. The Touloumoe Mining Co. is drilling in section 20, township 47, range 28, C. W. Potts, of Deerwood, having charge of the work.

Mr. and Mrs. John T. Murphy, of Superior, were recent visitors on the range. Mr. Murphy has large interests at and near the hydraulic proposition at Little Rabbit lake.

The Consolidated Cuyuna Iron Co. is drilling in section 34, township 47, range 29, the Bamberg Exploration Co. having charge of the drilling. Superior, Duluth, Hibbing and Crosby men are in the company.

The John T. Jones-Ardis furnace, it is reported, will be established at Aitkin and the industry will give that town a decided impetus.

The E. J. Longyear Co. is operat-

ST. JOE-DECKERTS HERE TOMORROW

Same Lineup Which Faced Brainerd
Before With Exception of Catcher and Second Baseman

MINNEAPOLIS TEAM'S HISTORY

Athletes Famous in Football, Basketball and Track Work—Cook Pitches for Locals

The manager of the St. Joe-Deckerts, the Minneapolis team which plays Brainerd here Sunday afternoon on Koering field, has given the Dispatch the lineup of their nine for the game.

Pickering will be left field, Jensen shortstop, Barrett center field, Dean third base, West second base, Byers catcher, O'Shea first base, Broderick right field, Theis and Swanson pitchers, White utility. This is the same team which faced Brainerd the last game, with the exception of the second baseman and the catcher, where West and Byers add to the batting strength over Brown and Miller.

In recent games the St. Joe-Deckerts made a good showing. They defeated the Ballards August 3 by a 12 to 9 score. On August 10 they defeated the Cedar A. C. nine by 10 to 4. The Cedars won the championship of Minneapolis in 1912. On July 4 the St. Joe-Deckerts won from Willmar 7 to 4. They also beat the Harvards 9 to 8.

The St. Joe-Deckers lost two games to teams of inferior strength, but a glance at the box score will show an absence of four regulars from the lineup in one game and three in the other.

The team is a bunch of athletes prominent in football, basketball and

track work as well as in the national pastime. O'Shea and Theis starred on the St. Joe, Jr., basketball team in 1912-1913. Broderick is rated one of the best half-backs in independent football today; whose slashing play enabled the Beavers to score in their great game against the University of Minnesota All Stars last Thanksgiving day. He is a fast, sure fielder and a hard hitter. Pickering can hit the ball with all the ability of his famous "Dad" Ollie Pickering, formerly of the Washington Americans. Barrett is the big center fielder and the hardest hitter on the team. He covers lots of ground and has a wonderful throwing arm, having heaved the ball 400 feet in a long distance trial. This composes as good an outfield trio as can be shown in independent ranks.

Dean, West and Byers have all made their mark in high school athletics. Jensen is the speed merchant of the infield who goes down to first like a flash, sharing top honors for speed and cleverness on the bags with Barrett and Dean. These boys can do a hundred yards in 10 and a fraction seconds.

Swanson and White have been through many a hard fought game and have the nerve to carry them through many a tight place.

With such an array of talent facing Brainerd Sunday, it behooves the locals to have a strengthened and well-practiced team in the field Sunday afternoon. Considine is in communication with a new third baseman and if successful may have Dierich of Little Falls on that bag.

Cook, who can always be depended upon in times of trial, will be on the mound for the locals. Fans who saw Cook pitch his 14 inning game against the Ballards say they never saw a prettier exhibition of pitching and are assured that he really grew better and had more stuff on the ball as the innings lengthened out.

Sunday, August 17, will be the date of a great game. A large attendance is needed, one that will fill the grand stand, the bleachers and line the sides of the fence. It may be hot in town and the lakes may look inviting, but a game like Sunday's does not come every day. If everything works well we may have a repetition of the topnotch baseball which the locals favored Brainerd with last Sunday and that surely was a game which will go down in history as being the best that ever happened in the old town.

JULY WEATHER REPORT

As Furnished the Dispatch by Arthur L. Mampel, Caretaker at Gull Lake Dam

The Dispatch has been furnished with a condensed report on July weather, the statistics having been gathered by Arthur L. Mampel, caretaker at the Gull lake dam.

The mean temperature was 66.79 degrees. The mean maximum was 77.81, the mean minimum 55.77. The maximum of the month was July 30 when the thermometer scaled the heights and reached 91. The minimum was reached July 28 when 45 degrees was recorded.

The total precipitation was 6.20 inches. The greatest rainfall in any 24 hours occurred on July 11 when 1.26 inches fell.

There were 11 clear days, 15 partly cloudy and 5 cloudy. Days on which more than .01 inches precipitation took place numbered 15. The prevailing wind direction was from the northwest. Hail fell July 27, the damage to crops being slight. There were 15 days of rain, 10 being occasions of electrical storms. The rainfall was almost twice the amount which fell during the same period last year.

MACK LOOKS AHEAD

Bruce, in Duluth Herald, Pays a Compliment to Connie Mack's Recognizing Talent

Bruce, in the Duluth Herald, writes: It is said that near the American league park in Philadelphia is a house where nurses and several instructors look after a crowd of boys. This is not a school in the general accepted sense of the word, nor is it an orphan asylum. This is the retreat where some of the future stars Uncle Connie Mack, the kindly genius who wins pennants for Philadelphia, has gathered some of the stars of the public schools and is making sure that their instruction in the great national game is thorough and proficient.

Connie doesn't claim the 1913 flag. The grave and unsmiling leader of the Athletics is letting others throughout the land attend to the acclaim act. He is busily engaged in teaching the young baseball idea how to shoot.

Recently Cornelius McGillicuddy is quoted as saying: "I think my 1914 team will be the strongest I have ever had. Bush, Brown, Shawkey and several other pitchers will be regulars. In addition I have several other youngsters who should develop very rapidly. I feel that we will have a great chance for the pennant next year."

Other managers may scour the bushes and look with envy upon some star that is included in the lineup of a rival team—not so, Mister Mack. The chances are that he is sizing up some cherub playing on a kindergarten team and keenly speculating as whether he will be ripe in 1925.

SOME BASEBALL DOPE

What the Colored Plutos Did to the Superior Golden Rules Was Something Awful

The Plutos, who defeated Brainerd 5 to 0 waded into the Superior Golden Rules in two games and lambasted the life out of that chesty organization.

The Red Devils beat them in the first game by a 5 to 0 score. The second game was a slaughter, the figures reading 22 to 5. The colored contingent had an easy time of it and swatted the ball at will. For the first time in the history of Hislop park a home run was knocked over the back field fence, being negotiated by Pitcher Lynch. Lynch made a double, triple and home run in one inning. Twenty-seven hits, many of them extra base clouts, were registered by the Plutos. Olson, pitching for the Golden Rules, asked to be relieved in the third inning and Dick Bradley, who pitched in Brainerd replaced him. They hit Bradley just as hard as the Scandinavians.

Superior Telegram—Manager Shapiro of the Golden Rules thought he was a business man until he bumped into the system of the Red Devil management. The French Lickers knock all of the balls the home team possesses out of the park and then sell some of their own second hand stock for the top price. It's a grand idea and if Shapiro had some hitters he'd try it.

Crosby lost a game to the Adams team of Duluth Sunday, being defeated on their home grounds by a 6 to 5 score. Delburn was on the mound for the Duluthians and pitched superb ball, getting 10 strikeouts to his credit. Never did the slab work for Crosby and showed great form, letting the Adams down with five hits. The Adams will play Aitkin Sunday, August 24.

Play Ironton

The Brainerd Speedwells play Ironton Sunday afternoon. In the last game the Speedwells were defeated by Ironton by a 3 to 2 score. This defeat has ruffled in the respective bosoms of the local team and they expect to do up their opponents tomorrow. A large number of rooters will take the early morning "Merry Widow" train to see the game.

SWANSON FROM PILLAGER

Minneapolis St. Joe-Deckert Pitcher Formerly Lived in Pillager

A large delegation of Pillager fans will take in the St. Joe-Deckert game here tomorrow.

Swanson, who is on the St. Joe pitching staff, is a former Pillager boy and the whole town is coming to the game to see him pitch.

There is more Catarrh in this section of the country than all other diseases combined, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it incurable, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. Cheney & Co., Toledo, O. Sold by Druggists, 75c. Take Hall's Kidney Pills for constipation.

In Real Life.

In real life the fireman who rescues the fair maiden is married and eats onions.—Aitchison Globe.

DEVELOPMENTS OF WEEK ON RANGE

(Continued from page three)

has been appointed ore dock agent of the Northern Pacific railway with headquarters at Superior. He visited the Cuyuna range Wednesday in company with Carl Zappfe, of Brainerd. Mr. Cook's duties will be similar to those of Mr. Johnson, the Soo ore traffic man.

Supt. and Mrs. H. J. Kruse have returned from a three weeks' vacation, six days of which were spent on the Great Lakes. This is the first vacation enjoyed by the superintendent of Rogers, Brown Ore Co. properties on the Cuyuna range, in the last three years or more.

The Pittsburgh Steel Ore Co. is operating the hydraulic mine at Little Rabbit lake. The overburden measures from 30 to 45 feet in depth and is easily removed by the electrically driven pumps and the sand sucker. The whole process is a revelation in cheap mining methods, excelling in this regard open pit mining. A handful of men, 15 to 20, are employed on the property which is worked continuously. J. C. Barr is the superintendent. It is thought that not much shipping will be done this season. In 1914 an immense tonnage will be handled. The Carlson Exploration company explored the property and it is claimed that holes Nos. 551 and 552 were the best two that Mr. Carlson ever drilled on any range, the 300 feet of ore being reported to have averaged 60 percent or better. The Carlson & Williams people had a lease for 35 cents a ton and they turned it over to the Pittsburgh Steel Ore Co. at 60 cents a ton. The latter have a 50 year lease.

The Cuyuna-Duluth mine at Ironton, which inaugurated its shipping season on August 3, is increasing its hoisting capacity. The mine has made a record in the way of sinking and shipping, all this work having been accomplished in eight months' time. Stockholders and others were pleased with the showing made by the company and the achievement redounds to the credit of the Lockwood-Donahue company, of Duluth, which financed the corporation.

The Cuyuna-Mille Laes mine has about completed its order of 6,000 tons to be shipped to the Bethlehem Steel company. Additional miners are being put to work at the Cuyuna-Mille Laes and the Cuyuna-Duluth mines.

The work of sinking a shaft in section 32, township 47, range 29 has been commenced by the Duluth-Brainerd Mining company. This property is situated across Mahanomen lake and north of the Cuyuna-Mille Laes Co. property.

Stockholders of the Vermes-Cuyuna Mining & Development company have received an offer to sell their property and are contemplating the matter. Many of the officials and stockholders are Brainerd men.

The Adams mine at Oreland is engaged in drifting. Cottages are being built for the miners in the town near the shaft. The Adams mine is expected to ship this season.

At the Barrows mine of the Virginia Ore Mining company, a subsidiary of the M. A. Hanna company, Supt. Nicholas has established a very good record. He took charge of the mine which had been pumping water for months, drained its shafts, installed a 4,000 gallon pump, got the work well in hand and is now hoisting ore in a steady stream.

The Brainerd-Cuyuna Mining Co. has commenced preliminary operations to sink the shaft near South Sixth street, a mile south of the post-office in the city limits of Brainerd. Mr. Martin is expected to have charge of the operations and on Monday, August 11, the first work was instituted. The shaft will be sunk 200 feet and at that depth the ore body will be crossed. The mine expects to enter the shipping lists in 1914.

Many Brainerd people living within a few blocks of the property are stockholders of the company.

The opening of this section of the Cuyuna range within the city limits of Brainerd will draw attention to the holdings of the Martin Exploration Co., the Baker Mining Co., Charles Niemeyer of Duluth, the Judge G. W. Holland properties and the 40 acre tract which the judge gave to the city of Brainerd. Indications of ore have been found on both this 40 and the 80 acre tract which Judge Holland gave the city. The 80 acre plot lies just northeast of the N. P. railway shops and is the scene of marshy ground in Northeast Brainerd. By mining this property bequeathed to it the town will be able to pay all its debts, as estimated by the judge in his will, and will have enough on hand later to make the city as free from taxes as Glasgow, Scotland. No wonder people are considering the statement once made by the judge that time would show that he was the best booster Brainerd ever had. The judge anticipated that 1913 would mark the era of great development in Brainerd.

The Hale-Bradley exploration company has drills operating in section 10, township 46, range 28 and section 16, township 46, range 28.

A. W. Johnson, professor of geology at the university of Minnesota, is at work compiling data on the Cuyuna range. The state survey and the United States geological survey will jointly produce a government report on this new range of Minnesota, each standing half the expense. The book will be published next fall. It is

only lately that the university of Minnesota took an active interest in the mining industry and the plan is to study its growth and foster the same just as agriculture has been done in the past. The university of Minnesota now has graduates from its engineering and geological departments holding positions in every mine on the Mesaba range and a similar peaceful conquest will be made of the Cuyuna range. The dominance of the university of Wisconsin in the mining world will be contested by the university of Minnesota in this, its own state. The day when Wisconsin's name was emblazoned on about every geological and mining monograph is now past and Minnesota is coming to the front. In the preparation of this data Mr. Johnson had placed much dependence for assistance on the late Salisbury F. Adams, of Deerwood, and he was deeply shocked at the sudden death of this young mining engineer who had already made a mark in the world of engineering and geology. Data and all possible assistance is being given Prof. Johnson in the compilation of his report on the Cuyuna iron range and mining men, practical and university trained, are not chary with their information.

Ore shipments from the Cuyuna were not bothered by the ore handlers' difficulties at the head of the lakes. Work continued uninterruptedly at all points. The Touloumoe Mining Co. is drilling in section 20, township 47, range 28, C. W. Potts, of Deerwood, having charge of the work.

Mr. and Mrs. John T. Murphy, of Superior, were recent visitors on the range. Mr. Murphy has large interests at and near the hydraulic proposition at Little Rabbit lake.

The Consolidated Cuyuna Iron Co. is drilling in section 34, township 47, range 29, the Bamberg Exploration Co. having charge of the drilling. Superior, Duluth, Hibbing and Crosby men are in the company.

The John T. Jones-Ardis furnace, it is reported, will be established at Aitkin and the industry will give that town a decided impetus.

The E. J. Longyear Co. is operating
